New Needle & Hook Collection

The Seeknit collection of knitting needles, crochet hooks and accessories are made by Kinki Amibari, the oldest bamboo knitting needle supplier in Japan. For over 100 years they have continued to produce the best quality needles made by traditional craftsman.

Made from sustainable bamboo, these needles have finely ground needle points and carefully polished surfaces, provide an enriching crafting experience. The size is laser printed onto the needles and hooks so it won't rub off.

Seeknit have introduced environmentally friendly packaging materials that are plastic-free and FSC-certified to greatly reduce the amount of plastic and secondary materials used while still making them clear for displaying in store.

All Seeknit interchangeable circular needle sets are delivered in paper envelope type or craft paper case.

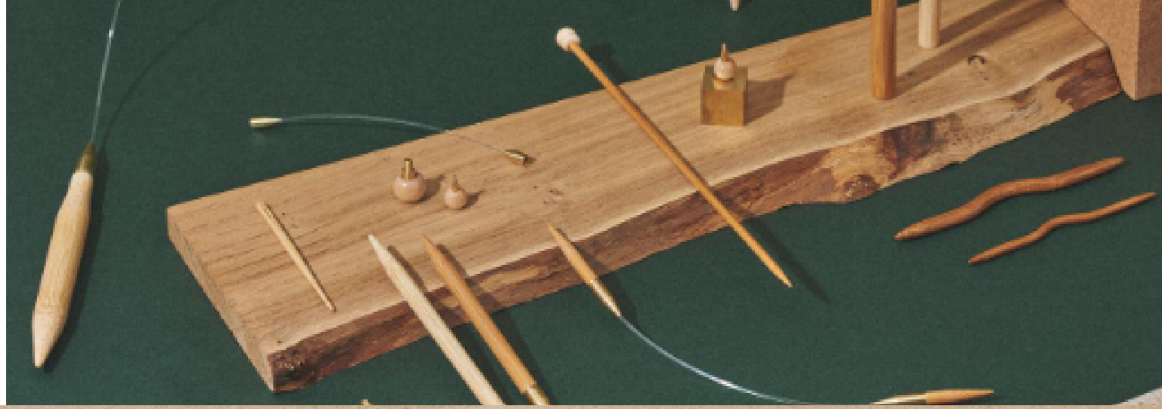

As well as sets, the Seeknit cases are available individually allowing for customised sets. There is also a cute range of accessories including stitch markers, bamboo sewing needles, marking pins, cable needles and a really useful mini crochet hook for all those dropped stitches.

Knitting Needle Collection

Classic Bamboo Single pointed Needles come in lengths of 23cm and 30cm with diameters ranging from 2.00mm to 12.00mm.

The surface finishing polished with natural plant wax gives Shirotake straight needles excellent lustre and fine texture.

DPN sets contain 5 needles with 10cm and 15cm needles, for small circular projects such as mittens, sleeve openings, and leg warmers- and the 20cm needles -for large circular projects such as sweaters, hats, neck warmers, and cowls.

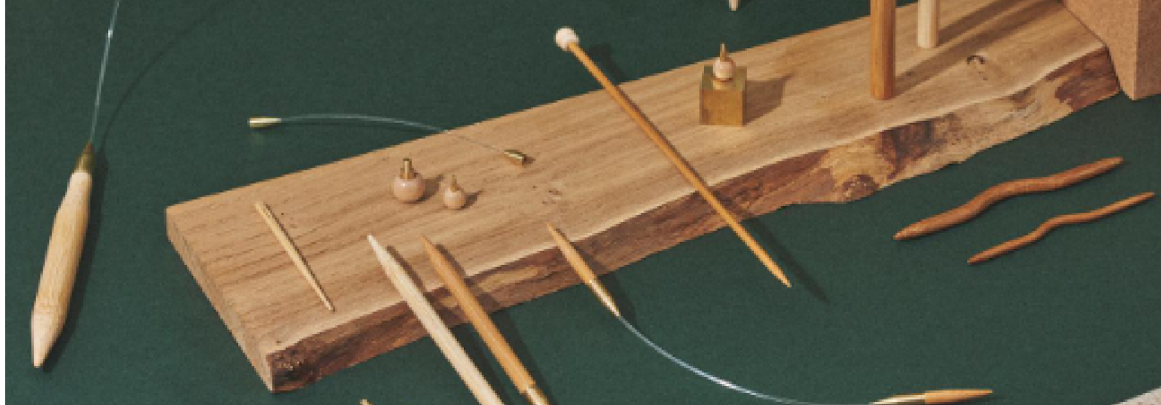

The fixed circular needles all feature a rotating cable and come in 40, 60, 80 & 100 cm lengths along with the exclusive 23cm Asymmetric Circular Needles. Asymmetric Circular Needles have a short needle and a longer needle making them easier to hold and work with when making small projects such as socks.

Interchangable Collection

The interchangeable needles are available in 3 lengths- 5cm, 10cm & 12.5cm- and 18 diameters- from 2mm up to 10mm- making them completely customisable to your knitting project.

To accommodate this huge range of sizes, the cables and related accessories come in 3 sizes with different screw diameters.

The cords for the circular needles smoothly rotate to prevent the cord from twisting. There are also converters to allow you to use a thinner cord as well as joints to extend the cord length. All the metal parts are made from brass so are nickel-free.

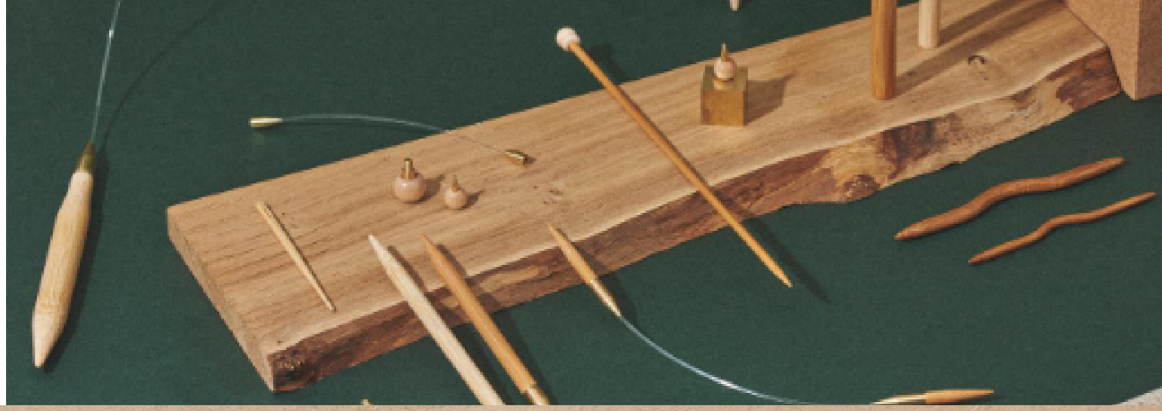

A variety of Bamboo Interchangeable Circular Needle Sets are available with a wide selection of needle lengths, sizes, and cable lengths, making many combinations possible.

Crochet Hook Collection

These traditional style bamboo crochet hooks are 15cm in length and available in sizes from 2.00mm to 12.00mm. They are perfectly formed and carefully polished to make it easier to hook the stitches and crochet complex designs.

These crochet hooks feature a special grooved grip that makes them easy to hold and prevent slipping. These hooks with a handle stabilize the tip angle and reduce fatigue. The bamboo handle has been treated at high temperature and high pressure treatment with the impregnation of natural plant wax making for a smooth, durable finish.

There are 2 options for Afghan hooks. The interchangeable hook that works with the spare cables and the Afghan Flex crochet hook which has a fixed connection to the cable and are 50cm in length. Both these options feature a rotating cable to make working with them a truly smooth and enjoyable experience
